

STAXS® CHANGE NOTIFICATION

Change material

Geachte Heer/Mevrouw Schuler

As part of the ongoing improvement of our DOTCH® products, the material used to make the article below has been modified to improve the operator's comfort.

The change concerns the article below:

H-0046-W

DOTCH® PP-20 Hood, polypropylene, 20g/m², white, 60cm, 100 pcs/bag, 10 bags/box

What changes concerning this article?

- Material: changes from polypropylene (20g/m²) to polypropylene - soft version (20g/m²). The softer fabric increases the comfort for the operator.

What remains the same?

- The product design
- The product quality and performance
- The number of products per packaging
- The STAXS® reference

The change will be introduced by Q4 2025, but due to current stock it is possible that this change may be noticeable later on. Should you need any further information, do not hesitate to contact

Jasmin Nicole Berghold (j.berghold@staxs.eu).

We hope to have informed you sufficiently,

STAXS® Contamination Control Experts
