

## PurMop® KEK40

Stainless Steel Mop Frame | Foldable | 40 cm System

ISO	3	4	5	6	7	8
GMP		A/B		C	D	

### Product description

PurMop® KEK40 is a newly developed folding stainless steel mop frame with a number of clever features. The special design without wireframe guarantees an easy cleanability (through avoidance of dead spaces), while the ultra flat design ensures a touchless pickup of mops. The mop frame can be opened with the foot or with the mop discarding mechanism on the trolley and can be fixed for ceiling cleaning with a special locking button. The PurMop® quick-change system allows a tool-free exchange of the handle, while the arrow on the mop frame indicates the correct wiping direction.

- \_ Polished stainless steel, durable design
- \_ Quick-change clip system
- \_ Optimal for cleaning of floors, walls and ceilings
- \_ Autoclavable, suitable for sterile cleanrooms

### Product specifications

**Item name | Item number:** PurMop® KEK40 | 2151008

Application / Usage: Recommended for cleaning and disinfection of floors, walls and ceilings in cleanrooms up to ISO 4

Size (l/w/h) : 38.8 x 9.9 x 13.4 cm

Weight: 650 g
