

Glove Dispenser

Hygienic & Ergonomic Solution for Nitrile and Latex Gloves

Designed for professional environments, our glove dispensers offer optimal hygiene, efficiency, and ease of use. Ideal for medical facilities, laboratories, food industries, and workplaces requiring frequent glove changes, this dispenser ensures gloves remain protected, accessible, and organized at all times.

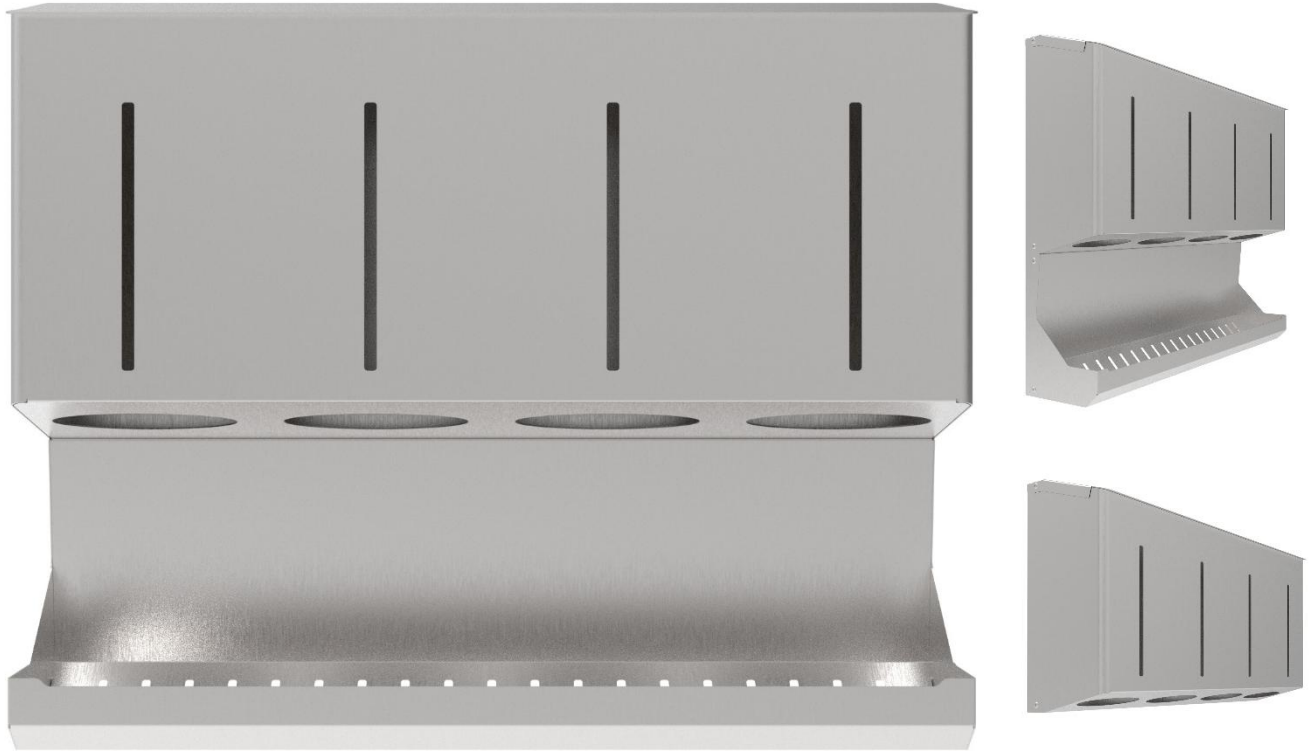

Key Features:

- ✓ Universal Compatibility – Compatible with nitrile, latex, and vinyl gloves.
- ✓ Hygienic – Reduces contamination risk by ensuring a minimal-contact dispensing system.
- ✓ Durable & Easy to Clean – Made from high-quality stainless steel (1.4301) for long-term use and effortless maintenance.
- ✓ Wall-Mountable – Secure, space-saving installation for optimal accessibility.
- ✓ Ergonomic & Compact Design – Keeps workspaces tidy and efficient, ensuring gloves are always within reach.
- ✓ Quick Refill System – Simple open-close mechanism for fast and hassle-free restocking.

Choose a professional solution that combines hygiene, ergonomics, and durability!
